fashion simplified

100% Export Oriented Proposed LEED Gold Certified
Apparel Manufacturer

Introduction

Colors & Stitches Limited (CSL) is staged to partner with the global fashion trend makers by catering to their appetite for the ever-changing fashion industry. This venture is aimed to simplify fashion by integrating both backward and forward activities and creating value for our partners by being environmentally responsible.

Goal

We make “fashion simplified.”

At CSL, we look at fashion as an integrated process starting from latest fabric, applications and trims to final products. To synergize this process we house our own R&D, responsible sourcing and efficient manufacturing.

What We Do

CSL is pledged to cater fashion across all demographics. We specialize in knit garment having wide array of fashion requirements.

We do all sorts of casual-wear, active and performance-wear and fashion garments for men, women and children. We deal with all sort of knitted fabric in cotton, nylon/rayon, polyester, viscose, modal and all kinds of manmade fiber.

How We Do

A creative R&D team is housed which works relentlessly on updated fabrics, color trends and patterns. A product development wing is dedicated to work on new applications and print/wash techniques.

Our responsible sourcing team has strong networks through which we ensure hi quality fabrics and trims from both local and international sources at competitive prices.

Our efficient manufacturing team equipped with IE personnel with lean expertise, who lead production ensuring high quality garments with QMS (Quality Management System) in place.

Along with the skill CSL is equipped with state of the art modern machineries.

Our Focus & Strength

Our core focus is to tap the mid to high-end (China shift) knitted product category and manufacture garments by being responsible to our partners and environment.

Team CSL is founded by industry experts of apparel sector in Bangladesh and staffed by young and energetic team in all relevant departments of business. The team is committed to relentlessly work by creating the right value for its partners and environment.

Being Responsible

CSL is a LEED Gold (Applied) facility establishment approved by US Green Building Council. We show our commitment to community and environment by reducing carbon emission, harnessing nature and conservation of natural resources.
